SENATE PROCEEDINGS

AN ANTI-BOND RESOLUTION.

White Makes Another Speech Against the Santa Monica Harbor Project-Bills Passed.

WASHINGTON, May 9 .- The Senate gave enost of the day to passing the accumulations on the calendar, and succeeded in disposing of a large number of them. The paragraph of the river and harbor bill for a deep-water still uncompleted. Mr. White, of California, finished his speeceh in opposition to-day, and will be followed on Monday by Chairman Frye, of the commerce committee, after which the final vote will be taken, and after that the river and harbor bill will be passed. Mr. Morrill, chairman of the finance committee, reported a resolution reciting that, in view of the recent action of the Senate In directing an investigation of recent bond conduct the investigation through a subcommittee, that authority be given to summon witnesses and administer oaths, and that the committee be authorized to sit during the recess of Congress. The resolution was referred.

The bill was passed for the deportation to Canada of the Cree Indians who fled into Montana at the time of the Louis Riel raid. Mr. Dubols created a temporary flurry on the bond question by asking immediate consideration for a joint resolution providing that hereafter no bonds shall be issued by any officer until the President has communicated to Congress the necessity for the bonds, the amount of the issue, and until Congress shall authorize the payment of the

The President is authorized to appoint a governmental commission to have charge of a government exhibit. An appropriation of 330,600 for a government building and \$100,000 for a government exhibit was made

Consideration of the river and harbor bill was then resumed and Mr. White proceeded with his speech opposing the location of a deep water harbor at Santa Monica, Cal. The Senator gave the evidence of mariners, commercial men, etc., along the Pacific coast, showing San Pedro to be preferable to Santa Monica for the deep water harbor. He answered in detail the points made by Mr. Corthell, who, according to Mr. White, is one of the engineers representing Mr. Huntington, of the Southern Pacific railway. Mr. White quoted from the reports of army Mr. White quoted from the reports of army engineers to show that San Pedro was best protected from the heavy seas from the west. He described Santa Monica as a delightful bathing resort, frequented by thousands of people, and said that any considerable number of railroad tracks centering there would destroy the present uses of the indemned" place, so far as the army s had passed on the subject, and mined locality. The views of Lietutenant C. Taylor favoring the Santa Monica were compared by Mr. White h those favoring San Pedro by jor Raymond and Professor George vidson, the latter being at the head of Coast and Geodetic Survey on the Pacasast To avoid all further confine knowing that such a board would against them. When Mr. Hunting-aced his wharf in Santa Monica bay on placed his wharf in Santa Monica bay to one had any idea of a harbor at that oint. If this harbor was built it would brotect the Huntington wharf and nothing lise. "It will be a donation of \$3,000,000 to private corporation." said Mr. White. "It will be taking \$3,000,000, which the United states engineers have recommended be not expended, and spending it on an individual, t will not be for a public benefit, but for the benefit of an enterprising person who

White closed with the declaration that Mr. White closed with the declaration that it would be an outrage to set aside the recommendations of army boards and give a vast appropriation which would specially benefit a private corporation and an individual. The Senator closed at 3 o'clock.

Mr. Frye, chairman of the commerce committee, said that he desired to make the closing statement, but Mr. White insisted that as the author of the amendment he had

would have to be passed speedily so as to permit them to become laws by the expiration of ten days before adjournment.

The Senate then proceded to consider unobjected bills on the calendar, and passed, the following: Appropriating \$300,000 for a building at Butte, Mont.; appropriating \$14,000 to William Moss, of Arkansas, for extra mail service; appropriating \$25,000 for a monmail service; appropriating \$25,000 for a mon-ument to General Nathaniel Greene, on the battlefield of Guilford Courthouse, N. C.; ex-tending to ten years the time within which the University of Utah shall occupy lands granted to it; authorizing the Secretary of War to appoint a commission to determine War to appoint a commission to determine the cost of securing for the United States the channel in Atchafalaya bay, Louisiana; appropriating \$3,600 to C. B. Bryan & Co., of Memphis, Tenn., awarded by the Court of Claims: appropriating \$10,000 for a statue of Commodore John D. Sloan, at Monterey, Cal.; giving to the evidence of privates soldiers the same weight as that of officers in pension cases; amending the pension law of 1890 so that the absence of an honorable discharge will not be a bar to pension provided there is no charge of desertion against the applicant; leasing to the city of Bismarck, N. D., Sibley Island, Missouri river, for public purposes; vacating Sugar Loaf reservoir site, California, and restoring the lands to public entry; amending the pension laws so as to make mustering into service prima facie evidence of sound body and mind.

Mr. Hill had considerable fun over the passage of the Butte City bill referring to the "Chicago-like" expansion of this town.
When Mr. Mantle spoke of the thriving character of the town Mr. Hill remarked that he was glad to hear of prosperity in Montana "in spite of the present gold standard." Mr. Hill finally allowed the base after extracting an assurance from Mr. pass after extracting an assurance from Mr. Mantie that the bill "could not pass the

Mr. White expressed the hope that the bill would not be loaded with all manner of tariff amendments and would be passed, as it was of much importance to the Pacific coast States. At 5 o'clock the Senate adjourned.

BOND ISSUE INVESTIGATION.

It Will Not Be Commenced Before the Adjournment of Congress.

WASHINGTON, May 9.- The method of procedure in the investigation of the recent bond issues, under the Peffer resolutions, formed the subject of consideration by the Senate committee on finance to-day. No decision was reached beyond that to have the inquiry conducted by a subcommittee. The membership of this committee was not announced, nor was a decision reached as to the number of Senators who would be appointed on it, suggestions on this point ranging all the way from three to seven. It was suggested that in all probability the investigation, when begun, would be a long and tiddous one, and that it might become nec-

essary for the committee to visit other places ate for authority to sit elsewhere than in Washington, to continue the sessions dur the summer recess and to employ sten rephers and such clerical help as may be found necessary. A general disposition was manifested by members of the committee to avoid service on the subcommittee, and came apparent that it would be difficult to ill it satisfactorily. The Democratic members of the committee generally manifested desire to have the inquiry begun at an early day, but the indications are that little progress will be made before the final adjourn-

Referring to the effect of the various declarations of the proposed platform, Mr. St. John says as to the first; some would acquiesce in the free coinage if they could foresee freedom from panics on its adoption. If \$30,000,000 of bank clearinghouse certificates can allay a panic in Wall street, the prospect of \$300,000,000 of United States coin certificates is likely to stifle any panic that would arise.'

DICKINSON TO VEST.

The Michigan Boss Replies to the

Strictures of the Missouri Senator. DETROIT, May 9 .- The Evening News today publishes an interview with Don M. Dickinson, replying to the strictures of Senator Vest and other free silver men as to the alleged corruption of the late Democratic convention by office holders. Mr. Dickinson denies that Mr. Stevenson, Dickinson's law partner, or anybody else, issued a circular offices of their districts, and in both county others two to one. According to the law, he says, the places of delegates could not be filled by proxies, as stated by Mr. Vest. The 16-to-1 men never had a majority of the delegates elected, and the talk of the use of money is "pure and unadulterated slander. It any money was used," says Mr. Dickin-son, "it was in behalf of a tree silver synson, "it was in behalf of a tree silver syndicate, organized and existing outside of this State and furnishing money to carry on the campaign in this State." In conclusion, he says: "I amproud to say that the party in this State is properly represented by its delegation to Chicago, and is in favor, by an overwhelming majority, of maintaining the pledges of the Congress on this question made whenever there has been silver legislation since 1873, that the policy of this government is to maintain the parity of the metals. Our party will not favor repudiation in any form or take any chances of favoring a policy that by any possibility would lead to repudiation. The Chicago convention will not favor the policy of free coinage at the ratio of 16 to 1."
